

April 22, 2010

The Burlington Education Association (BEA) and the Burlington School District (District) met on Thursday April 22, 2010. The BEA video taped this negotiations session. The District did not accept the BEA's proposal for establishing specific scheduled time for teacher preparation before the start of the school year. The BEA offered a counter salary proposal increasing the salary base 4%, plus step and column movement, which would cost 5.6% in new money.

The next negotiation session is scheduled for Thursday May 13, 3:30-6:30 PM at the Central Office. The topics scheduled to be discussed are management of the day and elementary teacher preparation time.
