

Burlington School District Policy
E 12: BUILDING AND GROUNDS INSPECTION

Former Policy EBA

The Superintendent in conjunction with the Director of Property Services shall assign necessary personnel at each school who shall be responsible for making safety, preventative maintenance and environmental inspections of the building equipment, and submitting written reports to the Board through the Superintendent in January and July of each year.

Safety in the Burlington Schools is the responsibility of every employee. Any potentially hazardous situation shall be reported to his/her supervisor immediately upon identification of such hazard.

The written semi-annual reports submitted to the Board shall identify unsafe conditions and other areas of concern.
