

POLICY E 17

Burlington School District Policy E 17: FOOD SERVICE MANAGEMENT

Former Policy EF

As part of the Burlington School District's concern for the welfare and education of the total student, we emphasize that good nutrition and health habits must be integral not only to the curriculum but also to the daily practices and behaviors of all employees, volunteers, and contracted services. To this end, the management of District Food Services will insure that students receive nutritious, healthy, and balanced meals consistent with National School Lunch Regulations (210.12), current research, and best practices.

Burlington Schools participate in the School Breakfast Program and the National School Lunch Program in order to assure that all students have high quality nutrition every day. District Food Service Programs will strive to offer meals that meet the Dietary Guidelines for Americans.
