

Capital Plan Memo 7

May 30, 2018

To: Burlington School District Community
From: Superintendent Obeng
Subject: An Update on the District's Capital Plan

Hello BSD Community,

This morning I had the privilege of sitting down with some constituents for a Superintendent Chat in the Old North End. Thank you to those who attended, joined the conversation, and shared feedback. Thank you, too, to our liaisons and preschool teachers in the Old North End for helping facilitate dialogue around our preschool and capital plans.

Through this process, we've presented to hundreds of people, answered countless questions, and strived to show the community our work and thought process behind why this plan is the best one to move our district forward. We've also heard many suggestions, and are excited to share our updated plans with the community. ***Please mark your calendars and stay tuned for more information regarding a special event that we're planning to hold from 6-8 PM on June 5th***, where we can talk about the projects, what we are doing to incorporate feedback, and what is next.

As I have said before, please remain engaged. Keep asking questions and offering suggestions. We're doing our best to respond at community events and through our continually updated Frequently Asked Questions document and these weekly memos. Please visit <http://www.bsdt.org/district/budget/capital-planning/> to find the most up-to-date information regarding the Capital Plan, including presentations, slideshows, our FAQ document, and an online question/feedback form.

Thank you,

Superintendent Obeng

YAW OBENG - SUPERINTENDENT
